CAREER OBJECTIVE

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with strong foundations in Java, Data Structures & Algorithms, SQL, and Full Stack Web Development. Experienced in building scalable MERN applications and solving 320+ coding problems on LeetCode. Passionate about backend engineering, problem solving, and developing efficient software solutions while continuously expanding knowledge in software development and machine learning.

EDUCATION

KCC Institute of Technology and Management, Greater Noida, Uttar Pradesh, India
Bachelor of Technology (B.Tech) in Artificial Intelligence & Machine Learning
September 2023 – Present
CGPA: 7.51 / 10
Courses: Data Structure, Algorithms, DBMS, Operating System, Computer Network, OOP's, AI & ML

PROJECTS

- **GitHub Analyzer** (MERN Stack): React.js | Node.js | Express.js | MongoDB | GitHub REST API
- Developed a full-stack GitHub analytics platform to analyze developer profiles, repositories, commits, and contribution statistics.
- Integrated GitHub REST APIs to fetch and visualize repository insights and user activity.
- Designed responsive UI with reusable React components and efficient backend APIs.
- **Donation Platform** (MERN Stack): React.js | Node.js | Express.js | MongoDB | JWT | Cloudinary
- Built a secure donation platform with JWT-based authentication and role-based authorization.
- Implemented admin dashboard with analytics and user management.
- Applied security practices including input validation and XSS protection.

SKILLS SUMMARY

- **Languages:** Java, Python, C, JavaScript, SQL (PostgreSQL, MongoDB)
- **Web Technology:** MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML5, CSS3
- **Data Science & Machine Learning:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn
- **Tools & Technologies:** Git, GitHub, Postman, VS Code, IntelliJ IDEA, Jupyter Notebook, Lab

TECHNICAL ACHIEVEMENTS & CODING PROFILES

- Achieved a 4★ badge in Java on **HackerRank**. (Click)
- Solved 315+ Data Structure and Algorithms (DSA) problems on **LeetCode**. (Click)
- **Attained a 1200+ rating on CodeChef** (click)
- Completed industry virtual experience programs through **Forage**.
- Actively building and maintaining **GitHub** repositories in Java, DSA, React, Backend Development, and Machine Learning through projects, coding practice, and hands-on development. **(Click)**

CERTIFICATIONS

- Deloitte Australia - Data Analytics Job Simulation (Forage)
- Walmart USA - Advanced Software Engineering Job Simulation (Forage)
- Coding Contest - Code Nova Coding Contest organized by GeeksforGeeks.
